WOULD ABOLISH MONROE DOCTRINE

Admiral Chester, in Address, Says the Document Is Obsolete.

In advocating the absolutiment of the Monroe doctrine and declaring President Monroe's ociginal document regarding our foreign relations as obsolute, admiral Coby M. Chrotor, U. S. N., referred, created a distinct senation at a locture on the "Panamas Conal" before the National Geographic doctory at New Massonic Temple has a straight. The applaint which credit the speaker's remarks on this all-important insertion, which has always between the temple of the stronger of the stronger of the arms and many high power of the arms and many high govern the "Panama Canal" which he gave not the "Panama Canal" which he gave to the Chester veporated the locture on the "Panama Canal" which he gave to the foreign the straight of the stronger of the foreign the straight of the straig

Largest Morning Circulation.

Annual Report Made to Commis sioners by Health Officer, Dr. W. C. Woodward.

OPEN-AIR SCHOOLS PRAISED BY PHYSICIAN

Fish Wharf Comes in for Condemnation as Insanitary Place.

Having the lowest death rates, a high-or average of general leadth, in Wash-ington, and a wide improvement in sati-tation and the handling of food products on sale in the District, to record, the an-nual report of Dr. William C. Wood-word, District Health Officer, which was submitted to the Commissioners yester-day, in throughout ontimistic. ugbout optimistic

lay, is throughout optimistic.
Results of the studies of the health deactiment of the "open air" sections of
he public schools show that the pupils
in these sections have gained both in
relight and stature, at a much higher
reportforate rate than their companons located in the regular schoolrooms.

F. Woodward is so well satisfied with
her results obtained in these "open air"
cettons, that he recommends that hey
e cetablished throughout the entire Disriet.

Basing the averages given in the report on a population of Z&Lills, of which
ZS_AM are white and ZLIZ are colored, as
general death rate of ILL is recorded for
the year 1911. The death rates for the
twe races for the same year are it if
for the white and ZLIZ for the colored.
Corresponding figures for 1910 were, a
general death rate of 18.55 for the white
people. 14.76, and ZLIZ for the colored.
A marked reduction of the death rate is
thus shown for the time covered by the
last report.
